Skills

- C# | .NET | Python | JavaScript | TypeScript | C++ | C | Next js | MSSQL | Node | Express | React | Vue | Redux | jQuery | NoSQL | Git

- Azure | Cloud Computing | CI/CD | XUnit | Jest | Cucumber | Nightwatch | Unit Testing | Lama |bd OOP | Unity 2D |

- Microservices | Distributed Systems | Frontend | Backend | Full-Stack |

Experience

Frontend Developer **Zety Ltd** **lagos ,**_Nig_ **10/2024 - Current**

- Engaging in design and development of enterprise-level microservice applications in the Commerce Experience Group, driving $35.3 billion in annual revenue.
- Created scalable APIs and background workers to manage millions of license requests daily using Azure technologies.
- Oversaw enLed the design and development of enterprise-level microservice applications in the Commerce Experience Group, driving $35.3 billion in annual revenue.
- Enhanced system metrics with telemetry integration and ensured robust software delivery through Continuous Integration and Deployment processes.

Software Developer Engineer **NextGen Tech** _Nig_ **02/2024 - 08/2024**

- Implemented enterprise applications of Prime's Content Experiment Platforms using Next js, **Java, React**, AngularJS, AWS, and DynamoDB.
- Designed and developed systems facilitating marketers to perform various optimization experiments within the Prime ecosphere.
- Automated and optimized business logic for the core marketing experiments, including A/B, Auto-Targeting, and Multivariate Testing.
- Completely automated the marketing platforms' user-experience testing process by integrating Nightwatch Selenium.
- Implemented server-side rendering (SSR) and static site generation (SSG) using **Next.js**, optimizing website speed and user experience.

Junior Software Engineer **PISI integrated service ld** _Lagos, Nigeria_ **07/2022 - 12/2023**

- Designed and implemented enterprise fintech applications of South Korea's largest e-commerce platforms (Gmarket, Auction, SmilePay), driving monthly revenue of $1 billion using **C# .NET, MVC, MSSQL**, node, react, redux, and jQuery.
- **_Reported directly to CPO:_** Engineering lead for designing and developing the fintech transaction dashboard that provides a rich visual summary of daily user purchase patterns powered by [Google Chart](#). Used by the board of directors in the decision-making process.
- Engineering owner of the E2E experience of the commerce platform's cancel, return, and exchange systems (PC/Mobile).
- Integrated multiple third-party systems with the escrow platform, including Alipay, increasing global revenue by 23% in the first quarter.

Frontend Developer, Intern **InnovaTech Ventures** _Lagos, Nigeria_ **11/2022 - 05/2023**

- **Fashion Street:** Mobile social game application development (Cocos2D/C++)

Frontend, Contract	**Cyberstep**	*mercel, France*	**07/2022 - 10/2022**

- **Combat Bots Cosmic Commander:** Mobile RTS game client and server development (ActionScript3 & Java)

Education

Bachelor of social Science	**Lagos State University**	*Lagos, Nigeria*	**07/2021 - 07/2025**

- Major in Economic
- Computer Engineering

Projects

- **E-commerce: Built an e-commerce platform leveraging Next.js and integrated payment gateways for a seamless shopping experience.**

- Eye-Health: innovative app designed to promote and maintain eye health through personalized tips, reminders for regular eye exams, and educational resources.

Mentorship

- **Springboard:** Coding Bootcamp Mentor responsible for mentoring and giving career advice to SWE students.
- **Computer Science Tutor:** Programming | Data Structure and Algorithms | career advice | coding interview prep | professional portfolio

Others

- Delivered projects aligned with the latest hiring trends, such as business promotion platforms and e-commerce systems.
- Recognized for "Best Creative Solution" at the 2022 Nigeria Software Hackathon.
